EDUCATION

**Hu-Friedy**

By standardising your instruments with **IMS**, additional time and revenue is generated while extending the useful life of your Hu-Friedy instruments. Dental professionals state that by implementing IMS, they **save 5 to 10 minutes\* per procedure allowing the staff to spend more time on value-added activities**. In addition, safer transportation of soiled instruments reduces risk of injury and exposure to blood borne pathogens.

\* When compared to single instrument decontamination based on market survey results
